PROFILE

Infrastructure of Sterling Home Innovator Pvt. Ltd. - A Leading Furniture Hardware Manufacturer

Sterling Home Innovator Pvt. Ltd. is a premier furniture hardware manufacturer based in India, committed to delivering the best quality products to its customers. With a successful collaboration with VEDUGGIO from Italy, renowned for its European production line, the company has established itself as a key player in the industry. Sterling Home Innovator's infrastructure is a strategic blend of cutting-edge facilities, skilled technicians, and adherence to international standards, enabling them to be a prompt solution provider with a vast range of multi-colour

options. Let's explore the company's robust infrastructure in detail:

- 1. State-of-the-Art Manufacturing Facilities:** Sterling Home Innovator boasts state-of-the-art manufacturing facilities equipped with advanced machinery and technology. The production line adheres to European standards to ensure precision, efficiency, and consistent quality across their furniture hardware products.
- 2. Collaboration with VEDUGGIO:** Through its collaboration with VEDUGGIO, an esteemed furniture hardware manufacturer from Italy, Sterling Home Innovator gains access to top-notch expertise, design concepts, and innovative production techniques, enriching its product portfolio and manufacturing capabilities.
- 3. Skilled Technicians:** The company's success is attributed to its team of highly skilled technicians. These professionals bring years of experience and expertise, ensuring that each piece of furniture hardware is meticulously crafted to meet the highest quality standards.
- 4. In-House Design and Development:** Sterling Home Innovator has an in-house design and development team that fosters creativity and innovation. This setup enables them to create unique and stylish furniture hardware that caters to diverse customer preferences.
- 5. Adherence to International Quality Standards:** As a responsible manufacturer, Sterling Home Innovator places great emphasis on quality. The company strictly adheres to international standards on quality, safety, and environmental sustainability, ensuring that every product meets or exceeds customer expectations.
- 6. Prompt Solution Provider:** Sterling Home Innovator takes pride in being a prompt solution provider to its clients. With a dedicated customer support team, they efficiently address queries, offer technical assistance, and handle after-sales services, enhancing overall customer satisfaction.
- 7. Extensive Product Range:** The company offers an extensive range of furniture hardware products, catering to various applications and design aesthetics. From cabinet handles, knobs, and hinges to drawer slides and decorative accessories, Sterling Home Innovator provides comprehensive solutions to meet diverse customer needs.
- 8. Multi-Color Options:** Understanding the importance of personalization in the furniture industry, Sterling Home Innovator offers a wide array of color options for its products. This enables customers to choose from a diverse palette, ensuring seamless integration with their furniture designs.
- 9. Efficient Supply Chain Management:** The company employs an efficient supply chain management system to ensure smooth production, timely delivery, and optimized inventory levels. This approach helps maintain seamless operations and enhances the overall customer experience.

In conclusion, Sterling Home Innovator Pvt. Ltd. has built a robust infrastructure to establish itself as a leading furniture hardware manufacturer in India. With its collaboration with VEDUGGIO from Italy, skilled technicians, in-house design capabilities, and commitment to international quality standards, the company offers a diverse range of best-quality furniture hardware solutions. Their prompt customer service and multi-color options further strengthen their position as a trusted partner in the furniture industry.

Coming from Modular Kitchen & Furniture manufacturing background, no one understands hardware & fittings better than us. Our 360 degree understanding of the subject has helped us design our products for functionality, durability & ease of installation.

Our quality standards are based on European & international standards, on guidelines issued by professional bodies & our own in house quality criteria Team STERLING has a collective industry experience of 50 years. Our strengths include core competencies in manufacturing, an ever widening product range, stringent quality standards, affordable price & All India distribution network.

Lifetime Warranty

Our products pass rigorous tests for performance & any stress they might have to withstand in normal use. As a testimony to that we offer lifetime warranty on performance of our products subject to certain conditions .

Free Design Service

Making a new modular kitchen or wardrobe?

We offer free design solution to suit every taste & budget

Designers at STERLING can provide you customize design & bill of quantity at zero cost.

For STERLING Gits always Customer First

STERLING is a customer centric organization & always put the needs & requirement of customers ahead of anything & everything else. Our entire team including production, marketing & support services are all focused on customer & their needs. We constantly take feedbacks from our customer & try to provide them best quality driven products & services.

Sterling offers largest collection of luxurious colours and finishes for drawers and organizers in India.

■ Drawer Systems

A place for everything and everything in place.
Largest collection of sizes, colour and types.

■ Organisers

Modern kitchen should have organisers for
optimal usage of space, options available for
all needs and budget

■ Hinges

Hinges though a small component but is a specialized subject
in its own. Every furniture require different hinge
as per its application.

■ Racks and Bins

A modular kitchen is incomplete without racks and bins.
They hold everything that we think is not so significant.

■ Elevators

Products of convenience and style.
They are the best example to showcase
minimum effort and maximum result.

■ Midway Systems and Shelves

A must have for those who are perfectionist,
as it perfectly organise the available space
which is generally considered as waste.

■ Wardrobe Systems and Accessories

Organizing a wardrobe is no more a challenge,
these products help you to organise your space
as per your mood.

■ Profile and Handles

Handel less feel, Colours to match your interiors,
many options to experiment and play

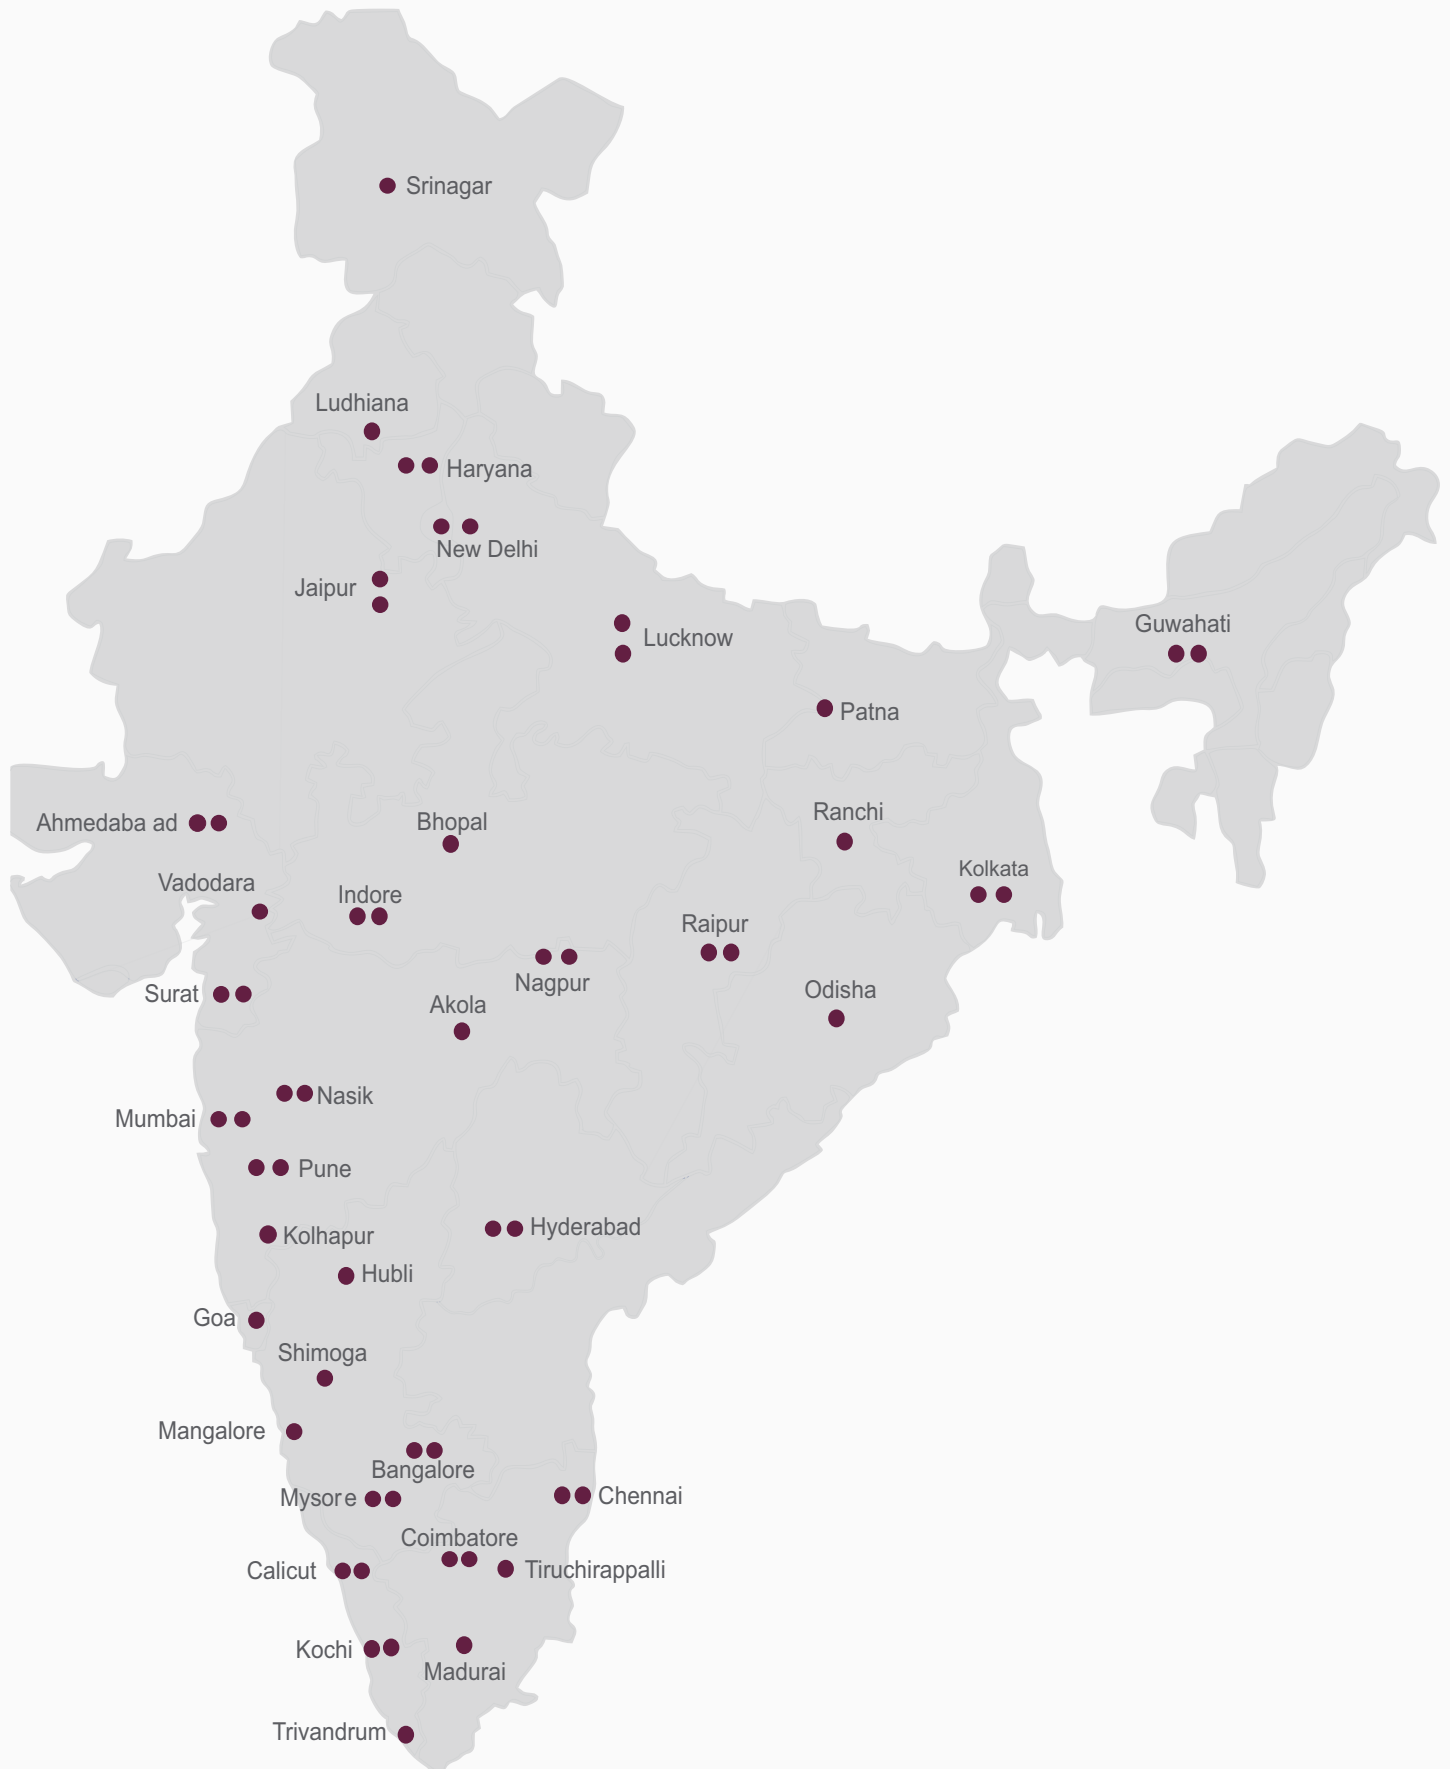

■ Ancillaries

Small is Big. These small components
plays a vital role for putting your dream together.

Product introduction

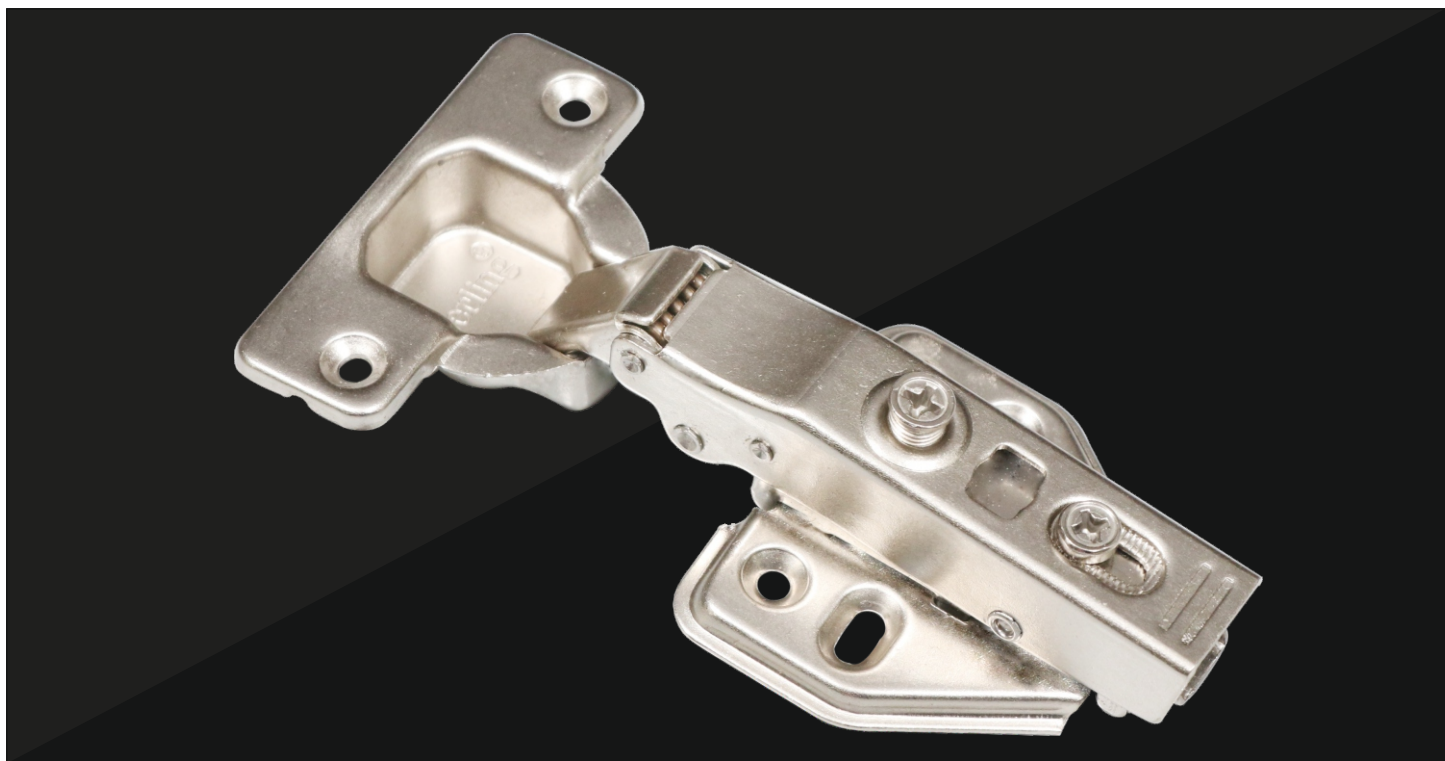

Open degree :165°-6
 Closing angle :87° 2
 3D adjustment
 dimension of door (k) :3-7 mm, Range of door thickness:14mm 26 mm
 Material:1.8 mm thick steel
 Clearance adjustment range :-1.9/+1.9 mm

Soft closing tech

Integrated SCT continuously variable speed, insure opening & closing softly and quietly.

Product introduction

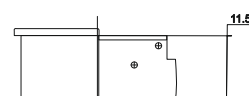

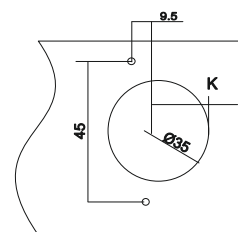

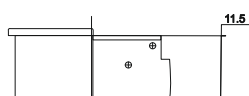

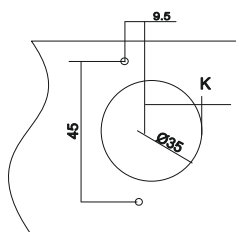

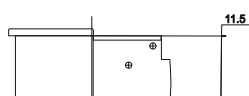

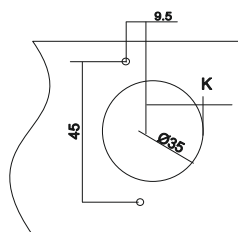

Thickness of hinge cup :11.5 mm
 open degree:103°±2
 dimension of door (k):3-7mm
 Range of door thickness::14-22mm
 Steady & ant-shake
 depth adjustment 9mm, horizontal
 adjustment 8mm

Patented roller

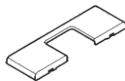

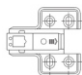

High strong structure design, long service life, self-lubricating rotating shaft, reduce abrasion precise designed for smooth and quiet performance.

Soft closing tech

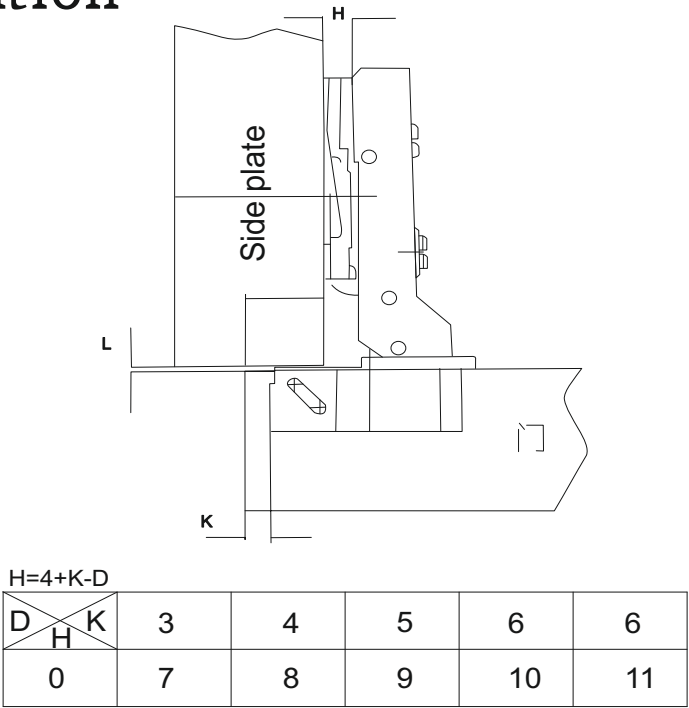

Integrated SCT continuously variable speed, insure opening & closing softly and quietly.

SLIM TANDEM BOXS

Tandem boxes also known as tandem drawers are modern drawer storage systems. These tandem boxes slide out on soft close metal sliders and can bear load of upto 45 kg. These boxes are perfect for storing all the consumables in one single place, it helps us to get the things exactly at the same place where we have kept them, instead of finding and searching it here and there. It also saves our useful time to a great extent. They serve as the perfect drawer for storing our kitchen essentials in the most organized manner. They are simple, sophisticated, and highly functional. People who want to make modular, stylish, attractive yet convenient, and comfortable kitchens can go for these tandem boxes which would be greatly helpful for them.
